## **1.0 SITE DESCRIPTION AND EXISTING CONDITIONS**

### **1.1 SITE LOCATION**

The EDCO Property, located at 1101 East Kibby Street, Lima Ohio 45804, is a 12.67-acre parcel of industrial land (“Site”). The property is situated on the north side of East Kibby Street and west of Interstate 75 on the east side of Lima, Ohio. The location of the Site is shown on Figure 1.

### **1.2 SITE HISTORY**

Industrial development began at the Site prior to 1939. In the 1950’s the Site was utilized by Davidson Enamel Products, Inc and Artkraft Manufacturing Corporation; Davidson Enamel Products Inc. occupied the west side of the Site and Artkraft Manufacturing Corporation occupied east and center portions of the Site. The two companies merged in 1957 under Davidson Enamel Products Inc and operated until sometime in the 1960s. In the 1970s through the 1980s the Site was occupied by several other entities (Fenstra Inc., Lawndale Industries, Inland-Ryerson Construction products, and Inryco Incorporated), which utilized all areas of the Site. In the late 1970s through 2018, EDCO Tool and Supply occupied the Site.

The Port Authority of Allen County currently has possession of the Site and is in the process of repurposing the Site for future industrial use.

While two buildings remain on the Site, the Site previously was developed with several additional structures. Only slabs, footers, docks and a partial basement remain from these former structures.

### **1.3 EXISTING SITE CONDITIONS**

Depicted in Figure 2, the current Site conditions include:

- Two buildings (Manufacturing Building and Warehouse Building) from the former EDCO Tool and Supply operation remain on the west portion of the Site. The Manufacturing Building is approximately 32,000 square feet, is slab on grade with a steel frame, and predominately brick façade. The Warehouse Building is approximately 5,000 square feet with a steel frame and raised concrete slab. The south portion (approximately 6,000 SF) of the Manufacturing Building was damaged in a fire and is currently inaccessible due to structural concerns. The northern approximate 26,000 SF of building is accessible and was not significantly damaged by the fire; however is in deteriorated condition. The Manufacturing Building contains racks, tools, manufacturing equipment drummed materials, universal waste, general debris, and asbestos-containing material (ACM). The Warehouse Building located on the west side of the Site contains numerous pallets and boxes of tools.
- Approximately 350,000 square feet of concrete slabs and foundations, concrete filled pits, and loading dock platforms from former buildings located on the Site. On the northeast portion of the Site exists a descending stairway leading into a former partial basement.
- Asphalt paved areas are located on the southwest, western, and eastern portions of the Site totaling approximately 200,000 square feet.

- Remnants of a railroad spur along the east side of the foundations of the former structures.
- A disturbed soil/debris area on the northwest portion of the Site that is believed to have been a possible placement area containing lead-impacted soils.
- Several flush-mount groundwater monitoring wells (to be protected) are located across the Site.

## 1.4 SPECIAL WASTE

The following special waste materials have been identified at the Site:

- 20 uncharacterized drums of material located inside and outside of the manufacturing building;
- ACM found in the former manufacturing building and on the concrete slab at several locations on the Site;
- Universal wastes, including fluorescent light tubes, ballasts, capacitors, and manufacturing equipment inside the Manufacturing Building; and,
- Lead impacted soils located on the northwest portion of the Site.

## 1.5 PREVIOUS ENVIRONMENTAL ASSESSMENTS AND CLEANUP

A Phase I Property Assessment (PIPA) was completed in April of 2019 documenting nine Identified Areas (IA), of which four are potential off-Site sources of impact to the Site. Due to the IAs identified at the Site, a limited Phase II Environmental Site Assessment (ESA) was conducted in May 2020 and a supplemental Phase II was completed in October and November of 2020 to evaluate soil and groundwater impacts.

In April of 2021, an Asbestos Survey was completed for the two remaining structures on the Site. The Asbestos Survey included collection of seventeen samples, five of which identified Chrysotile Asbestos at concentrations at 2-15 percent. ACM within the Manufacturing Building included floor tile and transite. A copy of the asbestos report is provided in Appendix A. Photos included in Appendix B show areas where transite ceiling panels have fallen and have become intermingled with various other materials in the Manufacturing Building.

A Remedial Action Plan (RAP) was prepared in January of 2022 to address an area of soil on the northwest portion of the Site that exceeds applicable standards under the Ohio VAP for lead and to address the presence of building materials containing asbestos in the Manufacturing Building. The RAP recommends the removal and disposal of lead-impacted soils and of ACM as the remedies most likely to support the objectives of the project, which is property redevelopment. Section 3.2.3 of the RAP describes the proposed process for soil excavation, loading, transportation and disposal and Section 3.3.2 of the RAP describes the proposed process for abatement of ACM. Electronic copies of the Phase I, Phase II and RAP are available upon request.

## 2.0 PROJECT OBJECTIVE AND SEQUENCE

The overall objective of the project is to remove all existing buildings/structures (including concrete slabs/footers and aboveground and underground utilities), drums, and impacted soil from the Site to allow for future redevelopment. PAAC envisions the project proceeding in five (5) phases:

- **Phase I – Pre-Demolition Activities:** Attendance at a pre-construction meeting with the PAAC and their representative to review scope of work/pay items, budgets and schedules; Submit a Notice of Intent to the Ohio EPA for construction stormwater management and prepare or obtain and Sediment and Erosion Control Plan and a Stormwater Prevention Pollution Plan; Physically disconnect all site utilities (electric, gas, sewer, water, etc.); Obtain a Demolition Permit, including verification that utilities have been disconnected and capped; Submittals; Contractor mobilization; removal and disposal of all drums within and outside of existing structures, and removal and disposal of loose Site-wide ACM.
- **Phase II – Demolition, Complete:** Demolition and disposal of the entire Manufacturing Building including ACM and demolition and disposal of the entire warehouse structure;
- **Phase III – Soil Remediation:** Excavation of impacted soil, soil stockpiling (B-16 area only), soil amendment (B-16 area only), transportation, and disposal of impacted soils from northwest corner of the Site;
- **Phase IV – Concrete Removal and Crushing, Complete:** Clearing and disposal of vegetation around the Site; removal of the concrete slabs, foundations, and footers; and crushing of concrete to meet an Ohio Department of Transportation (ODOT) 304 grade, verification of concrete grade must be provided; and,
- **Phase V – Backfill:** Backfilling of the impacted soil area, basements, footers, and foundations using material generated in Phase IV.

This project is funded through the Ohio Department of Development's (Ohio DOD) Brownfield Remediation Program. A copy of the Grant Agreement between the PAAC and the Ohio DOD is provided in Appendix C. Prevailing wage rates apply to this project. Contractor shall comply with Ohio Revised Code Sections 4115.03 through 4115.06.

A description of the scope of work associated with each Phase, as well as general conditions for the project, are presented in Sections 4.0 and 5.0, respectively.

### **3.0 PROJECT ORGANIZATION AND RESPONSIBILITIES**

This section presents the overall project organization and provides a general guideline for communications, reporting, and problem resolution during the execution of the Work. The key project personnel include the Owner (PAAC), the PAAC's on-Site Representative [Civil and Environmental Consultants, Inc. (CEC)], and the Contractor (and applicable subcontractors). A description of the roles and responsibilities of the key project personnel is provided below.

#### **3.1 OWNER**

PAAC is the owner of the property and will make all final decisions.

#### **3.2 OWNER'S REPRESENTATIVE**

CEC will serve as the Owner's Representative during the execution and Work, to ensure Contractor compliance with these specifications and PAAC requirements. CEC will report directly to PAAC, and will be responsible for the following:

- Serve as the primary point of contact for the Contractor and coordinate communications with appropriate PAAC representatives;
- Monitor Contractor's compliance with the project schedule;
- Maintain activity logs provided by the contractor, including written and photographic documentation of Work activities;
- Conduct meetings, as necessary, with the Contractor and PAAC representatives to discuss health and safety, operations, logistics, scheduling, or other project issues; and
- Maintain records associated with the completion of the Work, as described in Section 5.10, and provide to Owner as needed.

#### **3.3 CONTRACTOR**

The Contractor may elect to contract with a subcontractor(s) for completion of select portions of the Work. The Contractor will be responsible for all actions and compliance with project requirements of its employees and subcontractors. During the day-to-day execution of the Work, the Contractor will report directly to the Owner's Representative to resolve any scheduling, logistical, or operational conflicts. The Contractor will be responsible for the following:

- Filing all notifications and obtaining all necessary certifications and permits required to complete the Work;
- Performance of all Work in accordance with these specifications and other contract documents;
- Evaluation of the integrity of the on-site structures with regard to safe execution of the Work. The Owner makes no representations or assumes no responsibility for the condition of the structures. The conditions at the time of the Site pre-bid meeting will be maintained by the owner to the extent practical;
- Coordination of utility shut-offs and disconnection as required with applicable utility companies prior to commencing demolition activities;

- Health and safety of its workers and subcontractors, including compliance with all regulatory requirements [Occupational Safety and Health Administration (OSHA) and National Emission Standards for Hazardous Air Pollutants (NESHAP), etc.];
- Compliance with all applicable local, state, and federal laws and regulations;
- Providing an Asbestos Project Monitor (APM) that is licensed and specializes in Asbestos Abatement that will provide field oversight and monitoring during the execution of asbestos abatement activities to ensure Contractor compliance with these specifications and Ohio Department of Development Brownfield Remediation Program (ODDBRP) requirements. The APM shall monitor asbestos abatement work to ensure compliance with local, state, and federal regulatory requirements; and
- Coordination, scheduling, and management of all subcontractors.

### **3.4 RELATED DOCUMENTS**

Documents related to and referenced in these Specifications include:

- PAAC Request for Quotation;
- PAAC Bid Sheet;
- PAAC Bid Bond Form;
- Previous Environmental Assessment documentation (available in electronic format by request, except for the Asbestos Survey, which is provided as Appendix A);
- Ohio Department of Development Brownfield Remediation Program Grant Agreement.

## **4.0 SCOPE OF WORK**

The Contractor will provide all supervision, competent persons, labor, tools, materials, and equipment necessary for the completion of the Work described herein. All Work will be completed in accordance with these specifications and all applicable state, federal, and local laws and regulations.

### **4.1 PHASE I – PRE-DEMOLITION AND SITE PREPARATION ACTIVITIES**

#### **Pay Item 01-01: Obtain Demolition Permit; Mobilization; Utility Disconnect; General Conditions (Submittals and Erosion Control)**

The Contractor will perform the following prior to initiating any demolition or cleanup work on the Site:

- Attend a pre-construction meeting with the PAAC and their representative to review the pay items, budget and schedule;
- Submit notification to Ohio EPA and Ohio Department of Health for Asbestos Abatement Work;
- Coordinate physical utility disconnects (*e.g.*, water, sewer, gas, electric, data/phone) and removal of utility poles with transformer;
- Obtain a demolition permit;
- Required Submittals (Health and Safety Plan, Work Plan); and
- Submit a Notice of Intent to Ohio EPA for construction stormwater management and prepare and implement a Sediment and Erosion Control Plan and a Stormwater Prevention Pollution Plan (SWPPP).

#### **Pay Item 01-02: Drum Characterization/Transportation/Disposal; Collection/Transportation/Disposal of Loose Site-wide Asbestos Containing Material**

The Contractor shall complete, or coordinate to have complete, the characterization, overpacking (where necessary), transportation and proper disposal of 20, 55-gallon drums located in and near the Manufacturing Building. The Contractor will provide proof of proper disposal to the PAAC once received by the disposal facility.

The Contractor will hand pick, bag, transport, and properly dispose of loose ACM (Transite) located across the Site, but most noticeably at the gate entrance to the Site and in proximity of the Manufacturing Building.

### **4.2 PHASE II – BUILDING DEMOLITION**

#### **Pay Item 02-01: Manufacturing Building, Demolition Complete**

Approximately 6,000 square feet of the south end of the building has significant fire damage and is structurally unsound (see site photographs). Demolish south portion of the building “as is” and manage demolition debris as asbestos-contaminated debris at a licensed landfill. Abate, transport

and dispose of any remaining vinyl floor tile as ACM (see Appendix A, Rooms 8 and 11).

The remaining approximately 26,000 square feet of the Manufacturing Building is in a deteriorated condition with areas of the roof failing, causing transite panels to have fallen onto the floor and onto equipment and other structures in the building. Prior to demolition, the ACM (both remaining intact and fallen pieces) shall be properly removed/collected, transported and disposed of ACM at a licensed landfill (see ACM survey located in Appendix A). Remove remaining interior items in the Manufacturing Building (*e.g.*, dispose, repurpose, and/or recycle). Demolish Manufacturing Building to the concrete slab, transport and recycle ferrous material/dispose waste as construction and demolition debris. *Note, the removal and crushing of the concrete slab and footers are addressed within Pay Items 04-02 and 04-03.*

**Pay Item 02-02: Warehouse Building, Demolition Complete**

Approximately 5,000 square feet, steel frame building with a raised concrete slab. Remove interior items in the Warehouse Building (*e.g.*, dispose, repurpose, and/or recycle). Demolish Warehouse Building to the concrete slab, transport and recycle ferrous material/dispose waste as construction and demolition debris. *Note, the removal and crushing of the concrete slab, sub-slab, and footers are addressed within Pay Items 04-02 and 04-03.*

### **4.3 PHASE III – REMEDIATION OF IMPACTED SOILS**

**Pay Item 03-01: Area B-15**

Excavate, load, transport, and dispose of an estimated 510 tons (approximately 1.5 tons/cubic yard) of lead-impacted soil at a licensed landfill. Analytical data showing the material is not hazardous for lead is provided in Appendix D. Predetermined bounds of excavation are estimated and shown on Figure 4 and measures approximately 50 ft. by 60 ft. by 3 ft. Once excavation to the predetermined bounds is complete, confirmation sampling will be completed by the Owner's Representative to verify the effectiveness of the remedy. If confirmation soil data identifies that additional excavation is necessary, the Contractor will complete additional excavation and will be reimbursed on a unit rate basis over 510 tons based on the weight tickets provided by the disposal facility. Backfill of Area B-15 is included in Pay Item 05-01.

**Pay Item 03-02: Area B-16**

Excavate and stockpile an estimated 610 tons (approximately 1.5 tons/cubic yard) of lead-impacted soil on Visqueen® or similar material and cover with same. Allow for the Owner's Representative to collect confirmation soil sampling along walls and floor of the B-16 excavation area. Based on analytical results, the Contractor may be required to excavate and stockpile additional soils. Once the Owner's Representative has determined the effectiveness of the remedy is complete, the Contractor shall amend the soil stockpile with Blastox 215® or similar material to stabilize the lead. The Owner's Representative will then sample the soil stockpile for waste characterization. Once the waste characterization sampling demonstrates the lead has been stabilized, the material will be managed as solid waste and will be disposed at a licensed landfill. It is the Contractor's responsibility to stabilize the material such that it does not exceed toxicity thresholds for lead. Predetermined bounds of excavation are estimated and shown on Figure 4 and measures approximately 60 ft. by 60 ft. by 3 ft. The Contractor shall provide a lump sum fee based on the estimated 610 tons of soil. The Contractor shall also provide unit rates (/ton) to stockpile, amend

and dispose of additional soil. The Contractor will be reimbursed on a unit rate basis over 610 tons based on the weight tickets provided by the disposal facility. Bulk soil analytical data and waste characterization data is provided in Appendix D. Backfill of Area B-16 is included in Pay Item 05-01.

#### **4.4 PHASE IV REMOVAL OF VEGETATION, CONCRETE and ASPHALT**

##### **Pay Item 04-01: Vegetation Removal Complete**

The Contactor is responsible for the removal, transportation and disposal of vegetation that is located within the paved areas of the Site, prior to removal of pavement. The Contractor may use hand tools, power tools, and manual labor to remove the vegetation. The Contractor will refrain from using herbicides or controlled burning as a means of vegetation removal. The Contractor is responsible for removing, loading, transporting, and disposing of the vegetation removed from the Site.

##### **Pay Item 04-02: Concrete Removal and Stockpiling**

The Contractor is responsible for the excavation of concrete slabs, footers, foundations, and supporting concrete structures. The Contractor will completely remove and stockpile all concrete from the ground. Approximately 350,000 square feet of concrete is estimated across the Site. Groundwater monitoring wells noted on Figure 2 shall be protected during concrete removal by saw-cutting a three ft. by three ft. square around the monitoring well head and leaving the concrete within the saw cut in place. Underground utilities encountered during concrete removal shall be cut and capped, following removal of catch basins.

##### **Pay Item 04-03: Concrete Crushing to Meet ODOT 304 Gradation and Physical Requirements as defined in 703.17**

The Contractor will mobilize a concrete crusher to be used at the Site for the crushing of concrete. The concrete crusher shall be equipment with a means of dust suppression and magnet belts to remove metal and the Contractor shall provide all necessary permits required to operate the crusher. Concrete shall be crushed to meet gradation and physical properties noted in Section 703.17 of ODOT's 2019 Construction Manual. The Contractor will be paid lump sum with confirmation of meeting the specification noted above. The Contractor must collect and analyze a minimum of three samples of material demonstrating compliance with Section 703.17.

Concrete crushed to meet the specification noted above will be used to backfill voids created by the removal of basements, foundations, footers, concrete slabs, and other concrete supporting structures. Concrete crushed to a 304 grade will also be used to backfill the soil remediation areas located on the northwest portion of the Site.

Excess material meeting the specification noted above shall become property of Owner. Material not meeting the specification noted above shall become property of the Contractor and shall be loaded, transported, and disposed of or recycled by the Contractor.

**Pay Item 04-04: Removal and Offsite Disposal of Asphalt**

Contractor shall remove, load, transport and dispose/recycle of approximately 200,000 square feet of asphalt pavement. Groundwater monitoring wells noted on Figure 2 shall be protected during asphalt removal by saw-cutting a three ft. by three ft. square around the monitoring well head and leaving the asphalt within the saw cut in place.

**4.5 PHASE V – BACKFILLING**

**Pay item 05-01: Backfilling and Stabilization**

The Contractor is responsible for backfilling all areas of the Site where basements, footers, foundations, and concrete structures have been removed and the area of the impacted soils with ODOT 304 concrete, produced in Phase IV. All voids and disturbed areas shall be backfilled to the surrounding grade. The Contractor shall ensure there are no low laying areas where water ponding can occur.

At the completion of debris removal, demolition, and backfilling activities, the Contractor shall ensure all backfilled areas are level with the surrounding terrain. No wire, rebar, conduit, or any other debris shall be left protruding from the ground surface. Concrete that has been crushed to an ODOT 304 grade shall be used to as a method of stabilization for the Site. The Contractor shall follow the requirements specified in the applicable Site stormwater plans for stabilization of the ground surface to close-out plans and permits.

## **5.0 GENERAL REQUIREMENTS**

### **5.1 SITE BOUNDARY AND WORK AREA**

The Site boundary is shown on Figure 2. All work activities at the Site will be performed within the Site boundary unless approved in advance by the Oversight Consultant.

### **5.2 SITE FACILITIES**

The Contractor is responsible for providing the following:

- Equipment;
- Equipment storage sheds/trailers;
- Portable toilet; and
- Fire protection.

The Contractor is responsible for the off-site removal of its temporary structures and disposal of any trash/rubbish it generates.

### **5.3 WORK RESTRICTIONS**

Due the residential property's surrounding the Site, work will not begin prior to 7:00AM and will not extend past 5:00PM.

### **5.4 SITE SECURITY**

The Owner provides no security or surveillance of the Site. The Contractor is responsible for the security of its equipment and materials stored at the Site. The Contractor may elect to install concrete barriers or fencing as a means of protection.

### **5.5 SITE MAINTENANCE AND HOUSEKEEPING**

The Contractor will be responsible for keeping the Site clean and orderly. Upon completion of the Work, the Contractor will repair any damage caused to the Site or surrounding area by returning it, at a minimum, to its original condition, and will leave the Site free of any rubbish or waste materials.

### **5.6 DECONTAMINATION OF PERSONNEL, EQUIPMENT, AND VEHICLES**

The Contractor is responsible for the decontamination of any equipment, vehicles, or personnel leaving the Site. The Contractor will provide all materials and equipment necessary to complete decontamination activities. All contaminated materials, including decontamination fluids (if any), will be collected, containerized, and disposed of properly by the Contractor.

## **5.7 ENVIRONMENTAL PROTECTION**

For the purpose of these specifications, environmental protection is defined as the retention of the environment in its existing state to the extent possible. Environmental protection is the responsibility of the Contractor and includes protection of air (including dust control), water, and land.

### **5.7.1 Dust Control**

The Contractor will control dust or other airborne emissions from work areas or roads wherever a dust nuisance or hazard occurs. Controls may include sprinkling or spraying with clean water in sufficient quantities to control dust emissions but not so excessive to cause runoff from work areas or roads. Use of commercial dust suppressants (other than water) must be approved by the Owner prior to their use.

### **5.7.2 Stormwater Runoff**

In addition to installing erosion and sedimentation controls and implementation of a Stormwater Pollution Prevention Plan, the Contractor will prevent the transport or tracking of sediment or debris via surface water runoff from Site to the surrounding areas.

### **5.7.3 Spills or Releases**

The Contractor will take the measures necessary to prevent the spillage or release of any hazardous materials or petroleum products to the ground surface. Should such a spill or release occur, the Contractor will immediately notify the Owner's Representative and remediate the affected area.

### **5.7.4 Burning**

No on-site burning will be permitted.

## **5.8 REGULATORY COMPLIANCE**

The Contractor is responsible for performing all Work in accordance with applicable federal, state, and local laws and regulations. The Contractor is responsible for any penalties or corrective actions imposed by regulatory authorities or governmental agencies for non-compliance with laws and regulations.

## **5.9 TRAINING, LICENSES, PERMITS, AND NOTIFICATION REQUIREMENTS**

The Contractor will obtain all permits and registrations required for the Work by federal, state, and local jurisdictions and agencies. The Contractor will provide copies of applications, registrations, and permits to the Owner's Representative prior to beginning the Work.

The Contractor shall possess all licenses required for the Work by federal, state, and local jurisdictions and agencies. The Contractor's personnel shall possess any individual licenses

required for the Work in which the person is engaged. The Contractor shall maintain copies of all such licenses at the Site for the duration of the Work.

The Contractor shall ensure that its personnel working at the Site have all required training and medical certifications required for their positions and for performance of the work in which they are engaged. This includes any training required for persons defined as “competent persons” under applicable OSHA and other regulations. The Contractor shall maintain documentation of all such training and medical certifications at the Site for the duration of the Work.

## **5.10 RECORDKEEPING AND REPORTING REQUIREMENTS**

On a weekly basis during the Work, the Contractor shall submit to the Owner’s Representative: manpower timesheets, equipment use, work log listing quantities of material removed, and work accomplished.

## **5.11 WASTE DISPOSAL**

The Contractor shall be responsible for the loading, transportation, and disposal of all waste materials generated during the execution of the work in accordance with all disposal facility requirements. The Contractor is responsible for any penalties or corrective actions imposed by the disposal facilities for non-compliance with those requirements.

## **5.12 SUBMITTALS**

### **5.12.1 Work Plan**

The Contractor will submit a Work Plan to the Owner’s Representative for review and approval prior to the initiation of Work. The Work Plan will, at a minimum, provide:

- A list of subcontractors used to complete the Work;
- A list of required licenses, permits, and notifications required to complete the Work;
- Copies of licenses and training certifications necessary to complete the Work;
- Project approach and schedule, including: 1) Sequencing or phasing of work; 2) Coordination of subcontractors; and 3) Detailed schedule for completion (bar chart or equivalent) for individual phases/tasks;
- General procedures for removing ACM from existing structures;
- Procedures from demolishing remaining structures, including location of staging areas for demolition waste, and recyclable materials;
- Location and operation of concrete crushing equipment to meet the requirements for crushed concrete backfill described in Section 4.4;
- Procedures for waste handling, loading, transportation, and disposal, including the names of the permitted disposal facilities that will be used; and
- Recordkeeping, documentation, and reporting procedures in accordance with Section 5.10.

### **5.12.2 Health and Safety Plan**

The Contractor is responsible for the health and safety of its employees and its subcontractors during all phases of the Work. The Contractor also shall comply with all applicable regulatory requirements pertaining to health and safety.

Prior to the initiation of the Work, Contractor must submit to the Owner's Representative a Health and Safety Plan prepared in accordance with OSHA and other applicable regulatory requirements that will be implemented during the project.

### **5.12.3 Weekly Progress Reports**

On a weekly basis, the Contractor must maintain records and provide a work progress report and an updated project schedule as described in Section 5.10.

### **5.12.4 Waste Disposal Documentation**

Submit weigh slips to the Owner's Representative from the disposal facility(s) used for the ultimate disposal of waste materials to document proper disposal. Slips must identify the project the waste was generated from, the name and address of the disposal facility, and the type of waste disposed.

### **5.12.5 Payroll Records**

On a weekly basis, submit to the Owner payroll records necessary to satisfy requirements of the Ohio Prevailing Wage Law (Ohio Rev. §4115 Wages and Hours On Public Works).

## **5.13 PRICING AND PAYMENT**

### **5.13.1 Pricing**

The Contractor will provide lump sum costs for each bid item (task) listed on the Bid Sheet as well as a total lump sum cost to complete all Work described in these specifications. The Contractor will also provide unit rate costs on a per ton basis for soil emanating from the B-15 area and for soil emanating from the B-16 area. These unit rates will be used in the event that the total tonnage disposed from the Site exceeds the estimated amount.

This project is funded through the ODDBRP. A copy of the Grant Agreement between the PAAC and the Ohio DOD is provided in Attachment C. Prevailing wage rates apply to this project. Contractor shall comply with Ohio Revised Code Sections 4115.03 through 4115.06. The awarded contractor shall provide payroll records to the Owner on a weekly basis to verify compliance with these rates.

### **5.13.2 Basis of Payment**

Contractor may submit an invoice to the Owner for each task (Bid Item on Bid Sheet) after the task has been completed and all required documentation (e.g., waste disposal receipts, payroll records, etc.) has been provided. Task completion will be determined and agreed upon by the Contractor and the Owner's Representative. Contractor may submit its final invoice after Project Closeout as described in Section 5.14.

## **5.14 PROJECT CLOSEOUT**

The project will be considered complete after all Work has been completed, all materials and equipment have been removed from the Site (including erosion and sedimentation controls), and the disturbed ground has been stabilized. The contractor, Owner, and Owner's Representative will perform a final site inspection to determine whether the above conditions are met. If deficiencies are noted, the Contractor will correct the deficiencies before final payment is made.

**Summary:**

Based on the analysis of suspected ACM samples, a number of the samples of homogeneous areas were determined to be asbestos-containing.

The approximate total of asbestos-containing materials are as follows:

<b>ACM 9” Tile/Mastic</b>	<b>572 sq. ft.</b>
Rm. 8, 11	
<b>ACM Transite Ceilings</b>	<b>26,800 sq. ft.</b>
Rm. 13-21, 23	
<b>ACM Transite Wall Panel</b>	<b>810 sq. ft.</b>
Rm. 22 – Wall C&D interior and Wall D exterior <i>Metal over interior walls.</i>	
<b>ACM Transite</b>	<b>450 sq. ft.</b>
Covering Windows Rm. 23 Wall B	
<b>ACM Transite – Debris</b>	
exterior of Rm. 22	

Among the material noted above, the **Transite (ceilings/wall panels/debris)** material must be removed by a licensed asbestos abatement contractor prior to demolition.

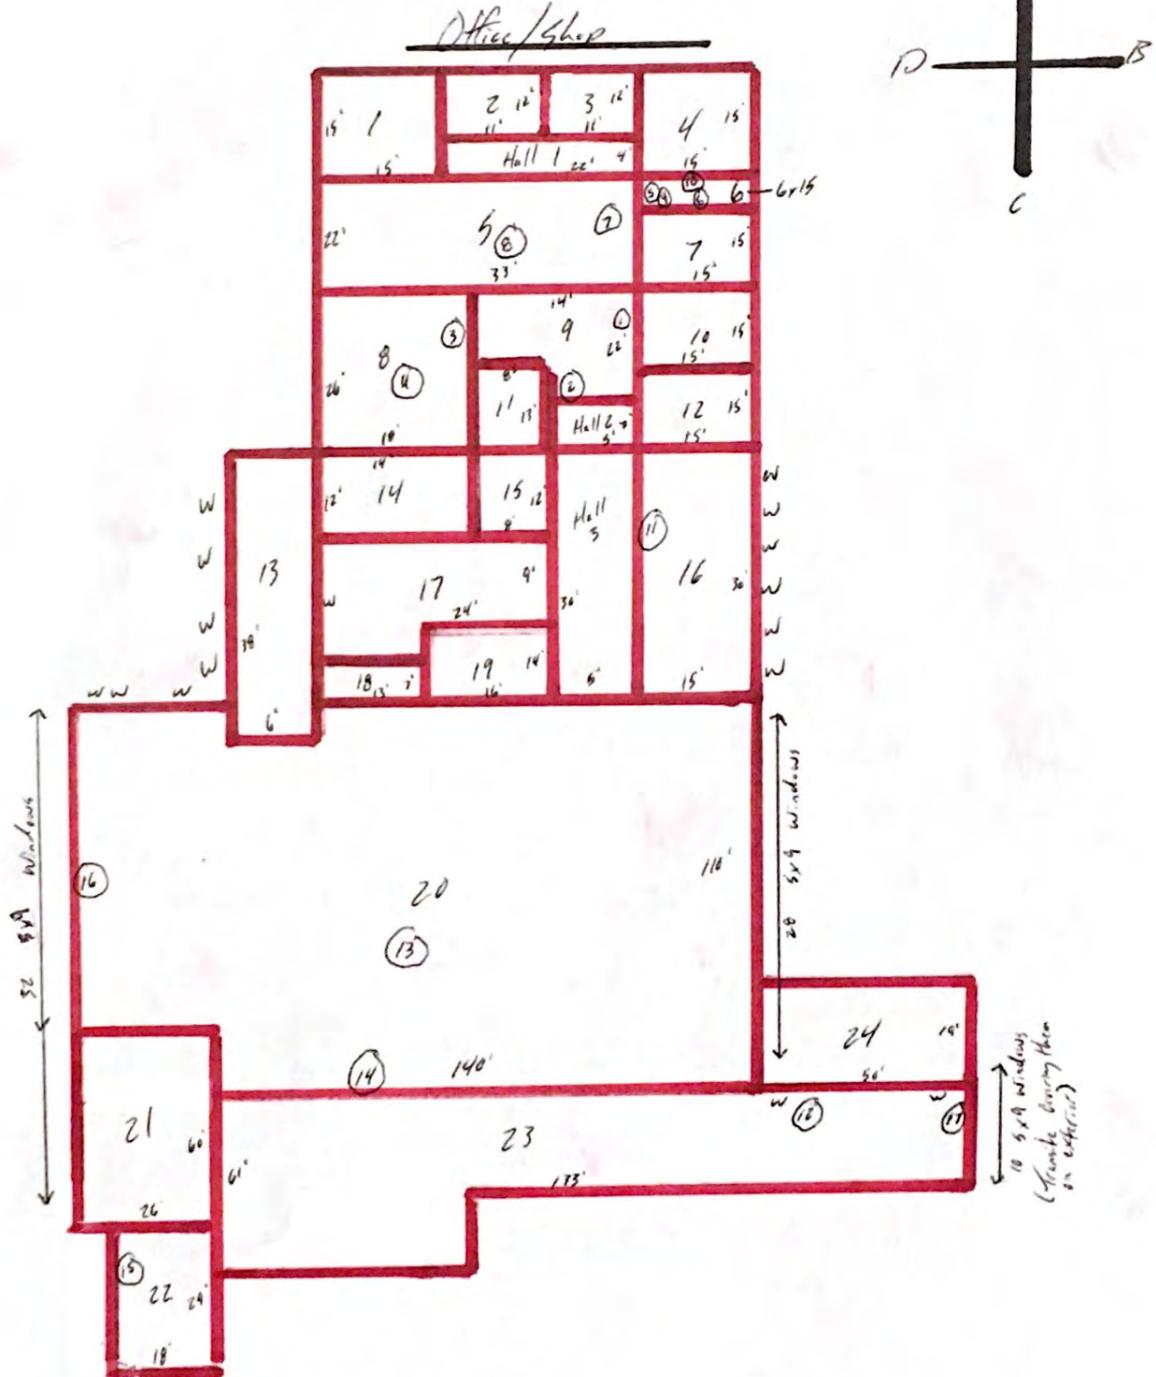

The **9” Tile & Mastic** is positive for asbestos and is considered Category 1 non-friable material. This material may remain for demolition given that this material is not in poor condition and will not be pulverized, crumbled, or reduced to powder during demolition activities and is taken to a standard C&D facility that accepts non-friable asbestos containing material.

\*Note: footage are approximate values and should be field verified prior to providing an abatement estimate.

Under current Ohio standards materials containing less than 1% are not “asbestos containing material”. However, this material is still regulated under OSHA and must adhere to wet handling, prompt cleanup, disposal requirements set forth by 29 CFR 1926 as applies to demolition operations involving materials containing less than 1% asbestos.

**APPENDIX C**

**PAAC/OHIO DOD GRANT AGREEMENT**

---

**Ohio Department of Development  
Brownfield Remediation Program  
Grant Agreement**

This Grant Agreement (the "Agreement") is made and entered into between the Ohio Department of Development (the "Grantor"), located at 77 South High Street, Columbus, Ohio 43215 and **Port Authority of Allen County** (the "Grantee") for the period **January 1, 2022 to June 30, 2023**, set forth the terms and conditions upon which Grantor will provide financial assistance to Grantee and Grantee will use the financial assistance for costs of implementing the Brownfield Remediation Program in accordance with the terms of this Agreement, the Grant Application (the "Application"), which consists of the collective materials submitted by Grantee to Grantor via Grantor's online system, the contents of this Agreement (collectively, the "Project") and the Brownfield Remediation Program Guidelines. In the event there is a conflict between this Agreement and the Exhibits, the Exhibits control.

**Statement of the Agreement**

- 1. Award of Grant Funds.** Grantor hereby grants funds to Grantee in the amount of **\$860,500.00** (the "Grant Funds"), for the sole and express purpose of providing for the performance of the program listed above and undertaking the Project(s) as listed in **Application** which is incorporated herein by reference. Grantee may not use the Grant Funds for any purpose other than completion of the Project. The Grant Funds shall be further contingent upon the Special Conditions set forth in **Exhibit III: Special Conditions**, if applicable. Expenditures shall be supported by contracts, invoices, vouchers and other data as appropriate, including the reports listed in accordance with the schedule set forth in **Exhibit II: Reporting**, evidencing the costs incurred. If the Grant Funds are not expended in accordance with the terms, conditions and time period set forth in this Agreement or the total amount of the Grant Funds exceeds the eligible costs of the Project(s), the amounts improperly expended or not expended shall be returned to Grantor within 30 days after the expiration or termination of this Agreement. Grantee shall not pledge the Grant Funds as security for any loan or debt of any kind other than that described in this Agreement.
- 2. Funding Source.** The Brownfield Remediation Program was established in House Bill 110 of the 134<sup>th</sup> General Assembly, codified in Ohio Revised Code section 122.6511 and found in the Ohio Administrative Code sections 122:31-1-01 through 122:31-1-06. This program awards grants for the assessment or remediation of brownfield sites throughout Ohio.
- 3. Term of Agreement.** This Agreement shall be effective from the Beginning Date and shall continue through the Expiration Date set forth on page one of this Agreement, unless terminated earlier in accordance with Section 15 of this Agreement. Reporting and refund obligations shall continue in accordance with the schedules set forth in **Exhibit II** and until satisfactorily completed.
- 4. Scope of Work.** Grantee shall undertake the Project(s) as listed in the Application. Grantor may, from time to time, as it deems appropriate and necessary, communicate specific instructions and requests and provide guidance and direction to Grantee concerning the performance of the work described in this Agreement. Within a reasonable period of time, Grantee shall comply with such instructions and fulfill such requests to the satisfaction of Grantor. These instructions and requests are to ensure the satisfactory completion of the work contemplated under this Agreement. In no event shall the Grant Funds be used for any other purpose than that described in this Agreement.
- 5. Payment of Grant Funds.** Payment to Grantee of the Grant Funds shall be made upon the timely submission to Grantor of a financial reimbursement request. Grantee shall deposit all Grant Funds received under this Agreement in a Federal Deposit Insurance Corporation (FDIC) account and record in a separate account on the books of Grantee. Grantor reserves the right to suspend payments should Grantee fail to provide required reports in a timely and adequate fashion or if Grantee fails to meet other terms and conditions of this Agreement. Grantor may withhold payment requests if Grantee fails to comply with the above requirements until such compliance is demonstrated. If applicable, Grantor will not release the final 10% of funding until Grantee confirms matching funds are expended.

- 6. Reporting Requirements.** Grantee shall submit to Grantor the reports required in **Exhibit II: Reporting**.
- 7. Records, Access and Maintenance.** Grantee shall establish, and physically control for at least five years from the final close out of this Agreement such records as are required by Grantor, including but not limited to, financial reports, intake and participant information, program and audit reports. The parties further agree that records required by Grantor with respect to any questioned costs, audit disallowances, litigation or dispute between Grantor and Grantee shall be maintained for the time needed for the resolution of any such issue. If for any reason Grantor shall require a review of the records related to the Project(s), Grantee shall, at its own cost and expense, segregate all such records related to the Project(s) from its other records of operation.
- 8. Audits.** Grantees receiving a state-funded grant award of less than \$500,000 do not have an audit requirement. Grantor may, at its option, choose to send department auditors to complete an audit of any state-funded grant award. Grantees receiving a state-funded grant award equal to or greater than \$500,000 are required to submit either a single audit or a grant specific audit report to Ohio Department of Development, Audit Office, P.O. Box 1001, Columbus, Ohio 43216-1001.
  - i. **Single Audit:** Grantee obtains an organization-wide audit. The report includes organization-wide financial statements, an opinion on the financial statements, a report on internal controls, and a report on compliance with the terms and conditions of the grant agreements. The audit report must include a schedule of federal grants. This report should include the division name, the grant name and number, the amount of cash received, the expenditures charged and the balance at the end of the audit period. The audit report must include a report on compliance with the terms and conditions of federal grants. Single audits must be performed by an independent public accountant. Single audits must be submitted to Grantor within 30 days of the date of the release, but no later than nine months after the end of the audit period.
  - ii. **Grant Specific Audit:** Grantee obtains an audit of a specific grant that is equal to or greater than \$500,000. The audit report must include a statement of revenues and expenditures for the grant, an opinion on the statements of revenues and expenditures, a report on internal controls as they relate to the grant, and a report on compliance with the terms and conditions of the grant agreement. A grant specific audit must be performed by an independent public accountant. Grant specific audits must be submitted to Grantor within 30 days of the date of the release, but no later than nine months after the end of the grant period.
  - iii. **Audit Standards:** Audits performed by independent public accountants must be performed in accordance with generally accepted auditing standards or generally accepted government auditing standards for financial and compliance audits, whichever is applicable.
- 9. Monitoring, Evaluation and Audit Activities.** Grantor shall supervise, evaluate, and provide guidance and direction to Grantee in the conduct of the work and activities to be performed under the terms of this Agreement. Grantee's staff and all parties involved with the project shall cooperate with Grantor and its authorized representatives in their program monitoring and shall maintain and make available to Grantor all programmatic, fiscal, and performance records necessary for Grantor's monitoring and evaluation. Grantee shall submit to Grantor reports detailing the expenditures of the Grant Funds and such other reports as may be required by Grantor, including the reports listed and according to the schedule set forth in **Exhibit II: Reporting**.
- 10. Reports and Records.**
  - a. **Performance Reports.** Grantor shall supervise, evaluate and provide guidance and direction to Grantee in the conduct of the work and activities to be performed under the terms of this Agreement.
  - b. **Signature and Costs.** The authorized representative on behalf of Grantee shall certify by his or her submission of each report required by **Exhibit II** that the information reported by Grantee is true, complete and correct.

- 11. Rights of Inspection.** Grantee shall permit Grantor to inspect and copy, during normal business hours, any books and records necessary to ensure compliance with the terms and conditions of this Agreement. Grantee acknowledges and agrees that rights of inspection (1) extend to representatives and agents of Grantor and federal agencies that pass funds through Grantor including, but not limited to, the Auditor of State of Ohio, an appropriate inspector general appointed under applicable federal or state law, the Comptroller General of the United States and/or the Government Accountability Office; (2) include the rights to examine Grantee's corporate accounts or other accounts and/or funding sources within the control and/or name of Grantee when there is evidence (e.g., vouchers, invoices, canceled checks, descriptions, etc.) that these books contain original or substantial source documentation of the federal funds granted herein; (3) contain Grantee's covenant to make all fiscal records available to authorized audit personnel of Grantor and its federal agencies for inspection at any time and as often as Grantor may deem necessary and in a manner as not to interfere with the normal business operation of Grantee; and (4) include Grantee's undertaking to make available to Grantor for interview any officer or employee of Grantee or of any contractor or subcontractor of Grantee regarding the Grant Funds and any transaction involving the Grant Funds. Grantee shall also require each of its non-profit partners, contractors and subcontractors paid with Grant Funds to make its respective books and records available for inspection and copying in the same manner as described in this section for Grantee's books and records.
- 12. Budget Alterations.** Grantee may make alterations to any line in its budget submitted with this Agreement as referenced in the **Application** so long as Grantee notifies Grantor of such budget alteration within the electronic application system 30 days prior to the date of the change and Grantor approves the proposed alteration within the electronic application system. Alterations to line items in Grantee's budget shall not increase the amount of Grant Funds awarded under this Agreement. Grantor shall respond to Grantee's request to approve a budget alteration within a reasonable period of time.
- 13. Grantee Certifications and Assurances.** By signing this Agreement, Grantee certifies and assures the following:
  - a. **Equal Employment Opportunity.** Grantee shall not discriminate against any employee or applicant for employment because of race, religion, color, sex, national origin, disability, age, military status or ancestry. Grantee shall ensure that applicants for employment are considered for employment, and that employees are treated during employment, without regard to their race, religion, color, sex, national origin, disability, age, military status or ancestry. Grantee will incorporate the requirements of this paragraph in all of its contracts for any of the work undertaken on the Project (other than subcontracts for standard commercial supplies or raw materials), and Grantee will require all of its contractors for any part of such work to incorporate such requirements in all subcontracts for such work.
  - b. **Property and Equipment Purchases.** All items purchased by Grantee are and shall remain the property of Grantee, except if Grantor exercises its right to terminate this Agreement pursuant to paragraph 14, in which case all property and equipment purchased by Grantee with any Grant Funds herein awarded shall revert to Grantor. Grantee shall provide for the security and safekeeping of all items obtained through this Agreement.
  - c. **Accounting.** Accounting systems used by Grantee are in accordance with generally accepted accounting standards and other applicable local, state and federal statutes, regulations, policies, directives, and guidelines. Grantee has established procedures to ensure good fiscal and management practices to deposit and account for the Grant Funds. Grantee shall make appropriate documentation relating to the Grant Funds available to the Grantor and the U.S. Department of Treasury, the Comptroller General of the United States, or any of their duly authorized representatives, for examination or copying, upon a reasonable request.
  - d. **Insurance.** Grantee is and shall remain throughout the term of this Agreement insured by a surety or fidelity insurance to cover all individuals responsible for the security and control of the Grant Funds

covered under this Agreement. Grantee shall maintain on file and produce a copy at the request of the Grantor a Certification of Fidelity Bonding and Collateral Security of Deposits.

- e. **Minority Hiring Goal.** Grantee shall make a good faith effort to employ minority persons in the completion and operation of the Project in the same percentage as the average percentage of minority persons who reside in the county in which the Project is located and any contiguous Ohio counties.

#### 14. Termination

- a. Grantor may immediately terminate this Agreement by giving reasonable written notice of termination to Grantee for any of the following occurrences:
  - i. Failure of Grantee to fulfill in a timely and proper manner any of its obligations under this Agreement.
  - ii. Failure of Grantee to submit any report required by this Agreement that is complete and accurate.
  - iii. Failure of Grantee to use the Grant Funds for the stated purposes in this Agreement.
  - iv. Failure to spend matching funds, if applicable.
- b. Early Termination: Grantor may also terminate this Agreement if Grantee (i) defaults under another Agreement between the Grantor and/or the Tax Credit Authority and Grantee (ii) admits Grantee's inability to pay its debts as such debts become due, (iii) Grantee commences a voluntary bankruptcy, (iv) an involuntary bankruptcy action occurs against Grantee which remains undismissed or unstayed for 60 days, (v) Grantee fails to meet the minimum funding requirements under the Employee Retirement Income Security Act or other such employee benefits plan, or (vi) Grantor has reason to believe Grantee has ceased operations at the Project location. The events permitting early termination by Grantor shall be considered a default by Grantee and subject to the Effects of Termination under Section 18 of this Agreement.

#### 15. Remedies. Following a default by Grantee, Grantor may exercise one or more of the following remedies:

- a. **Discontinue Disbursements.** If the Grant Funds have not been fully disbursed, Grantor may terminate any and all of Grantor's obligations under this Agreement, including the obligation to make further disbursements of Grant Funds.
- b. **Suspension or Termination.** Grantor may withhold payment under this Agreement, suspend or terminate the Agreement in whole or in part for cause, which shall include, but is not limited to: (1) failure for any reason by Grantee to fulfill in a timely and proper manner its obligations under this Agreement, or other agreements entered into between the parties, including compliance with the approved program and any and all statutes, Executive Orders, regulations, directives, guidelines, plans or other requirements as may become generally applicable at any time; (2) Grantor determines that the nature or extent of noncompliance is extreme and warrants immediate termination of this Agreement; (3) Grantee ceases to exist or becomes legally incapable of performing its responsibilities under the Agreement; (4) Grantee has failed to comply with any timelines for the expenditure of Grant Funds as required by Grantor; (5) ineffective or improper use of the Grant Funds provided under this Agreement; (6) failure to comply with reporting requirements including, but not limited to, submission by Grantee to Grantor of reports that are incorrect or incomplete in any material respect; (7) suspension or termination of any funds provided under this Agreement, or the portion thereof delegated by this Agreement; and (8) cancellation of grant funds.  
Grantee acknowledges that timely performance and attainment of performance measurements are material to Grantee's compliance with this Agreement and a priority of the federal and state governments in the administration of the Grant Funds.

- c. **Demand Repayment of Grant Funds.** Under the circumstances described in Section 5 of this Agreement, demand repayment of Grant Funds improperly expended. Grantee shall not be required to refund Grant Funds in an amount that exceeds the Grant Funds awarded.
  - d. **Other Legal Remedies.** Pursue any other legal or equitable remedies Grantor may have under this Agreement or applicable law.
  - e. **Remedies Cumulative.** No remedy provided to Grantor under this Agreement or otherwise by law or in equity is exclusive of any other available remedy. No delay or omission by Grantor in exercising any right or power accruing upon any default shall impair any such right or power or be construed as a waiver, and each such right or power may be exercised from time to time as often as may be deemed by Grantor to be expedient.
- 16. Effects of Termination.** Within 60 days after termination of this Agreement, Grantee shall surrender all reports, documents, and other materials assembled and prepared pursuant to Agreement, which shall become the property of Grantor, unless otherwise directed by Grantor. After receiving written notice of termination, Grantee shall incur no new obligations and shall cancel as many outstanding obligations as possible. Upon compliance with this Section, Grantee shall receive compensation for all activities satisfactorily performed prior to the effective date of termination.
- 17. Liability.**
- a. **Public Agency or Governmental Entity.** If Grantee is a public agency or governmental entity, Grantee shall maintain liability and property insurance to cover actionable legal claims for liability or loss which are the result of injury to or death of any person and damage to property (including property of Grantor) caused by the negligent acts or omissions or negligent conduct of Grantee, to the extent permitted by law, in connection with the work and activities of this Agreement. Furthermore, as between the parties to this Agreement, each party agrees to be liable for the negligent acts or negligent omissions by or through itself and its respective employees, agents, and contractors. Each party to this Agreement further agrees to defend itself and pay any judgments and costs arising out of such negligent acts or omissions, and nothing in this Agreement shall impute or transfer any such liability from one party to the other.
- 18. Forbearance Not a Waiver.** No act of forbearance or failure to insist on the prompt performance by Grantee of its obligations under this Agreement, either express or implied, shall be construed as a waiver by Grantor of any of its rights hereunder.
- 19. Certification of Funds Available.** None of the rights, duties, and obligations described in this Agreement shall be binding upon either party until all statutory provisions of the Ohio Revised Code, including, but not limited to, Section 126.07, have been complied with, and until such time as all necessary funds have actually been made available and forthcoming from the appropriate state and/or federal agencies.
- 20. Budget Reductions.** Grantee acknowledges that Grantor is subject to State of Ohio budgetary constraints that could result in the reduction of the amount of Grant Funds provided under this Agreement. Should Grantor's funding levels be reduced, Grantor shall notify Grantee in writing of the extent of any reduction to the Grant Funds and reduce Grantee's commitments in a manner corresponding to the reduction of Grant Funds and such notice shall result in the Agreement being amended without further action by the parties. Grantee hereby irrevocably authorizes Grantor to reduce the amount of Grant Funds provided under this Agreement upon written notice to Grantee provided there is a corresponding reduction in commitments outlined on page 1 of this Agreement
- 21. Conflict of Interest.** No personnel of Grantee, contractor of Grantee or personnel of any such contractor, and no public official who exercises any functions or responsibilities in connection with the review or approval of any work completed under this Agreement, shall, prior to the completion of such work, voluntarily or involuntarily acquire any personal interest, direct or indirect, which is incompatible or in conflict with the

discharge or fulfillment of his or her functions or responsibilities with respect to the completion of the work contemplated under this Agreement. Grantee shall immediately disclose in writing to Grantor any such person who, prior to or after the execution of this Agreement, acquires any personal interest, voluntarily or involuntarily. Grantee shall cause any such person who, prior to or after the execution of this Agreement, acquires any personal interest, voluntarily or involuntarily, to immediately disclose such interest to Grantor in writing. Thereafter, such person shall not participate in any action affecting the work under this Agreement unless Grantor determines that, in light of the personal interest disclosed, his or her participation in any such action would not be contrary to the public interest.

**22. Adherence to State and Federal Laws, Regulations.**

- a. **General.** Grantee shall comply with all applicable federal, state, and local laws in the performance of Grantee's obligations under this Agreement, the completion of the Project and the operation of the Project as long as Grantee has any obligation to Grantor under this Agreement. Without limiting the generality of such obligation, Grantee shall pay or cause to be paid all unemployment compensation, insurance premiums, workers' compensation premiums, income tax withholding, social security withhold, and any and all other taxes or payroll deductions required for all employees engaged by Grantee in connection with the Project, and Grantee shall comply with all applicable environmental, zoning, planning and building laws and regulations.
- b. **Ethics.** Grantee, by its signature on this document, certifies: (1) it has reviewed and understands the Ohio ethics and conflict of interest laws including, without limitation, **ORC Sections 102.01 et seq., 2921.01, 2921.42, 2921.421, 2921.43, and 3517.13(I) and (J)**, and (2) will take no action inconsistent with those laws, as any of them may be amended or supplemented from time to time. Grantee understands that failure to comply with the ethics and conflict of interest laws, is in itself, grounds for termination of this Agreement and the grant of funds made pursuant to this Agreement and may result in the loss of other contracts or grants with the State of Ohio.

**23. Outstanding Liabilities.** Grantee represents and warrants that it does not owe: (1) any delinquent taxes to the State of Ohio (the "State") or a political subdivision of the State; (2) any amount to the State or a state agency for the administration or enforcement of any environmental laws of the State; and (3) any other amount to the State, a state agency or a political subdivision of the State that are past due, whether or not the amounts owed are being contested in a court of law.

**24. Falsification of Information.** Grantee represents and warrants that it has made no false statements to Grantor in the process of obtaining this award of the Grant Funds. If Grantee has knowingly made a false statement to Grantor to obtain this award of the Grant Funds, Grantee shall be required to return all the Grant Funds immediately pursuant to **ORC Section 9.66(C)(2)** and shall be ineligible for any future economic development assistance from the State, any state agency or a political subdivision pursuant to **ORC Section 9.66(C)(1)**. Any person who provides a false statement to secure economic development assistance may be guilty of falsification, a misdemeanor of the first degree, pursuant to **ORC 2921.13(F)(1)**, which is punishable by a fine of not more than \$1,000 and/or a term of imprisonment of not more than 180 days.

**25. Public Records.** Grantee acknowledges that this Agreement and other records in the possession or control of Grantor regarding the Project are public records under **ORC 149.43** and are open to public inspection unless a legal exemption applies.

**26. Miscellaneous.**

- a. **Forum and Venue.** Grantee irrevocably submits to the non-exclusive jurisdiction of any federal or state court sitting in Columbus, Ohio, in any action or proceeding arising out of or related to this Agreement, Grantee agrees that all claims in respect of such action or proceeding may be heard and determined in any such court, and Grantee irrevocably waives any objection it may now or hereafter have as to the venue of any such action or proceeding brought in such court or that such court is an

inconvenient forum. Nothing in this Agreement shall limit the right of Grantor to bring any action or proceedings against Grantee in the courts of any other jurisdiction. Any actions or proceedings by Grantee against Grantor or the State of Ohio involving, directly or indirectly, any matter in any way arising out of or related to this Agreement shall be brought only in a court in Columbus, Ohio.

- b. **Entire Agreement.** This Agreement, including its exhibits and documents incorporated into it by reference, constitutes the entire agreement and understanding of the parties with respect to its subject matter. Any prior written or verbal agreement, understanding or representation between the parties or any of their respective officers, agents, or employees is superseded and no such prior agreement, understanding or representation shall be deemed to affect or modify any of the terms or conditions of this Agreement.
  - c. **Program Income.** Any funds that were billed to the property owner as part of a nuisance order or other means and subsequently paid by a property owner to Grantee for Project work that was billed/paid by Grantor with Grant Funds, shall be returned to Grantor.
27. **Severability.** Whenever possible, each provision of this Agreement shall be interpreted in such manner as to be effective and valid under applicable law, but if any provision of this Agreement is held to be prohibited by or invalid under applicable law, such provision shall be ineffective only to the extent of such prohibition or invalidity, without invalidating the remainder of such provisions of this Agreement.
28. **Pronouns.** The use of any gender pronoun shall be deemed to include all the other genders, and the use of any singular noun or verb shall be deemed to include the plural, and vice versa, whenever the context so requires.
29. **Headings.** Section headings contained in this Agreement are inserted for convenience only and shall not be deemed to be a part of this Agreement
30. **Counterparts; PDF Accepted.** This Agreement may be executed in any number of counterparts, each of which when so executed shall be deemed to be an original and all of which taken together shall constitute one and the same agreement. Copies of signatures sent by facsimile transmission or provided electronically in portable document format ("PDF") shall be deemed to be originals for purposes of execution and proof of this Agreement.
- a. **Notices.** All notices, consents, demands, requests and other communications which may or are required to be given hereunder shall be in writing and shall be deemed duly given if personally delivered or sent by United States mail, registered or certified, return receipt requested, postage prepaid, to the addresses set forth hereunder or to such other address as the other party hereto may designate in written notice transmitted in accordance with this provision.
    - i. In the case of Grantor, to:

Ohio Department of Development  
Office of Energy and Environment  
77 South High Street, P.O. Box 1001  
Columbus, Ohio 43216-1001  
Attn: Deputy Chief
    - ii. In the case of Grantee, to:

Port Authority of Allen County  
144 South Main Street Lima, Ohio 45801

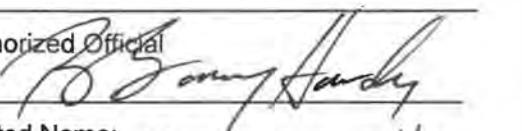

## **Signature**

Each of the parties has caused this Grant Agreement to be executed by its authorized representatives as of the dates set forth below their respective signatures.

**EXHIBIT I**

**Scope of Work/Budget/Grant Application**

Project scope of work and budget is located within Grantor electronic application system (Salesforce).

**EXHIBIT II**

**Reporting**

Grantee shall provide the information listed below by the date(s) specified herein or to be determined by Grantor. Grantor shall provide a format to submit the information and shall instruct Grantee in the proper completion of such documents. The reporting and recordkeeping requirements listed herein shall not be construed to limit Grantor from making additional requests or from changing or including additional detail. Failure to submit required reports will result in non-payment of monthly expenditures.

- 1. Financial Reimbursement Requests:** all financial reimbursement requests must be submitted electronically to the Grantor on a monthly basis as costs are incurred. Supporting documentation for costs submitted for reimbursement must be uploaded and submitted within the electronic system as part of the request. If an advance of funds is being requested, provide a rational for the advance and anticipated uses. The rational should include supporting documentation for the requested costs.
- 2. Program Reports:** Program reports must be submitted on a quarterly basis. Program reports must be submitted by close of business, on the third Friday at the end of each quarter. Program reports must include the following information:
  - a. Narrative summary of use of funds during the reporting period.
  - b. Update of outcomes projected in Grantee's Application. Examples may include an assessment initiated or completed, remediation work beginning on the site, additional testing completed and/or further development with the proposed end-use.
- 3. Final Report:** A final project report must be submitted 15 days after the end of this Agreement.

**EXHIBIT III**

Special Conditions may be included within this Grant Agreement as agreed upon by Grantee and Grantor.

Re: **EDCO, A4110001**

Work Order: **20100838**

Dear John,

ALS Environmental received 11 samples on 21-Oct-2020 02:23 PM for the analyses presented in the following report.

The analytical data provided relates directly to the samples received by ALS Environmental and for only the analyses requested.

QC sample results for this data met laboratory specifications. Any exceptions are noted in the Case Narrative, or noted with qualifiers in the report or QC batch information. Should this laboratory report need to be reproduced, it should be reproduced in full unless written approval has been obtained from ALS Laboratory Group. Samples will be disposed in 30 days unless storage arrangements are made.

The total number of pages in this report is 77.

If you have any questions regarding this report, please feel free to contact me.

Sincerely,

**R ob Nieman**

Electronically approved by: Rob Nieman

**Rob Nieman**  
Project Manager

Re: **EDCO; A4110001**

Work Order: **20100978**

Dear John,

ALS Environmental received 10 samples on 23-Oct-2020 04:50 PM for the analyses presented in the following report.

The analytical data provided relates directly to the samples received by ALS Environmental and for only the analyses requested.

QC sample results for this data met laboratory specifications. Any exceptions are noted in the Case Narrative, or noted with qualifiers in the report or QC batch information. Should this laboratory report need to be reproduced, it should be reproduced in full unless written approval has been obtained from ALS Laboratory Group. Samples will be disposed in 30 days unless storage arrangements are made.

The total number of pages in this report is 61.

If you have any questions regarding this report, please feel free to contact me.

Sincerely,

**Rob Nieman**

Electronically approved by: Rob Nieman

**Work Order:** 20110020

**Case Narrative**

---

The analytical data provided relates directly to the samples received by ALS Laboratory Group and for only the analyses requested. Affidavits are available upon request.

The analyses requested were analyzed according to Ohio Voluntary Action Program requirements.

QC sample results for this data met laboratory specifications. Any exceptions are noted in the Case Narrative, or noted with qualifiers in the report or QC batch information. Should this laboratory report need to be reproduced, it should be reproduced in full unless written approval has been obtained from ALS Laboratory Group. Samples will be disposed in 30 days unless storage arrangements are made.

Samples for dissolved metals have been filtered. The samples were then prepared and analyzed for metals.

**Case Narrative**

The analyses requested were analyzed according to Ohio Voluntary Action Program requirements. Affidavits are available upon request.

The analytical data provided relates directly to the samples received by ALS Laboratory Group and for only the analyses requested.

QC sample results for this data met laboratory specifications. Any exceptions are noted in the Case Narrative, or noted with qualifiers in the report or QC batch information. Should this laboratory report need to be reproduced, it should be reproduced in full unless written approval has been obtained from ALS Laboratory Group. Samples will be disposed in 30 days unless storage arrangements are made.

Re: **EDCO**

Work Order: **22092554**

Dear Mike,

ALS Environmental received 2 samples on 26-Sep-2022 09:00 PM for the analyses presented in the following report.

The analytical data provided relates directly to the samples received by ALS Environmental - Holland and for only the analyses requested.

Sample results are compliant with industry accepted practices and Quality Control results achieved laboratory specifications. Any exceptions are noted in the Case Narrative, or noted with qualifiers in the report or QC batch information. Should this laboratory report need to be reproduced, it should be reproduced in full unless written approval has been obtained from ALS Environmental. Samples will be disposed in 30 days unless storage arrangements are made.

The total number of pages in this report is 9.

If you have any questions regarding this report, please feel free to contact me:

ADDRESS: 3352 128th Avenue, Holland, MI, USA  
PHONE: +1 (616) 399-6070 FAX: +1 (616) 399-6185

Sincerely,

A handwritten signature in black ink, appearing to read "Chad Whelton".

Electronically approved by: Chad Whelton

Chad Whelton  
Project Manager

### Report of Laboratory Analysis

---

**Case Narrative**

Samples for the above noted Work Order were received on 09/26/2022. The attached "Sample Receipt Checklist" documents the status of custody seals, container integrity, preservation, and temperature compliance.

Samples were analyzed according to the analytical methodology previously transmitted in the "Work Order Acknowledgement". Methodologies are also documented in the "Analytical Result" section for each sample. Quality control results are listed in the "QC Report" section. Sample association for the reported quality control is located at the end of each batch summary. If applicable, results are appropriately qualified in the Analytical Result and QC Report sections. The "Qualifiers" section documents the various qualifiers, units, and acronyms utilized in reporting. A copy of the laboratory's scope of accreditation is available upon request.

With the following exceptions, all sample analyses achieved analytical criteria.

**Metals:**

No other deviations or anomalies were noted.

**Client:** Civil & Environmental Consultants, Inc.  
**Project:** EDCO  
**WorkOrder:** 22092554
